## What does the Fund invest in?

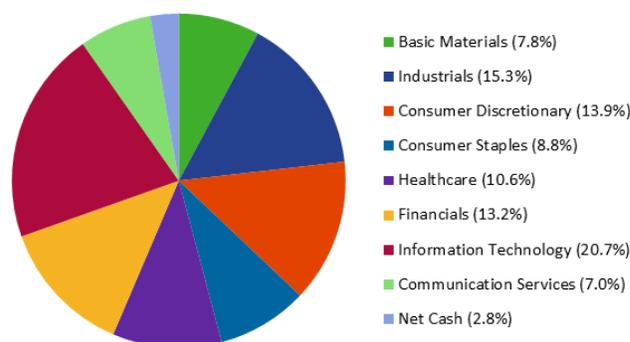

The Fund will seek to achieve long-term capital appreciation by investing primarily in global equity securities. The portfolio may consist of all types of equity and debt obligations of issuers that may or may not be listed for trading upon the facilities of stock exchanges or other organized and regulated trading facilities. Assets of the Fund may also be invested in debt obligations or held in cash to the extent that economic, market or other conditions make it appropriate.

The charts below give you a snapshot of the Fund's investments on March 31, 2021. The Fund's investments will change.

<b>Total percentage of top 10 investments</b>	<b>35%</b>
<b>Total number of investments</b>	<b>45</b>

### How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility."

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

### Risk rating

NCM Asset Management Ltd. has rated the volatility of this Fund as **low to medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see "What are the Risks of Investing in the Fund?" section of the Fund's simplified prospectus.

### No guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

### How has the Fund performed?

This section tells you how the ETF Series shares of the Fund have performed in past calendar years, with returns calculated using the ETF Series' net asset value (NAV). However, this information is not available because the ETF Series has not yet completed 12 consecutive months.

#### Year-by-year returns

This section tells you how ETF Series shares of the Fund have performed in past calendar years. However, this information is not available because the ETF Series has not yet completed a calendar year.

#### Best and worst 3-month returns

This section shows the best and worst returns for ETF Series shares of the Fund in a 3-month period. However, this information is not available because the ETF Series has not yet completed a calendar year.

#### Average return

This section shows the value and the annual compounded rate of return of a hypothetical \$1,000 investment in ETF Series shares of the Fund. However, this information is not available because the ETF Series has not yet completed 12 consecutive months.

### Trading ETF Series

Exchange traded series hold a basket of investments, like mutual funds, but trade on exchanges like stocks. Here are a few things to keep in mind when trading exchange traded series:

#### Pricing

Exchange traded series have two sets of prices: market price and net asset value (NAV).

#### Market Price

- Exchange traded series are bought and sold on exchanges at the market price. The market price can change throughout the trading day. Factors like supply, demand, and changes in the value of a Fund's investments can effect the market price.
- You can get price quotes any time during the trading day. Quotes have two parts: **bid** and **ask**.
- The bid is the highest price a buyer is willing to pay if you want to sell your exchange traded shares. The ask is the lowest price a seller is willing to accept if you want to buy exchange traded shares. The difference between the two is called the "bid-ask spread".

- In general, a smaller bid-ask spread means the exchange traded series is more liquid. That means you are more likely to get the price you expect.

**Net asset value (NAV)**

- Exchange traded series have a NAV. It is calculated after the close of each trading day and reflects the value of a Fund's investments at that point in time.
- NAV is used to calculate financial information for reporting purposes – like the returns shown in this document.

**Orders**

There are two main options for placing trades: market orders and limit orders. A market order lets you buy or sell exchange traded shares at the current market price. A limit order lets you set the price at which you are willing to buy or sell exchange traded shares.

**Timing**

In general, market prices of exchange traded series can be more volatile around the start and end of the trading day. Consider using a limit order or placing a trade at another time during the trading day.

**Who is this Fund for?**

This Fund is suitable for investors who:

- Wish to invest in global equities
- Want the potential for long term capital appreciation
- Are comfortable with low to medium investment risk (i.e. are willing to accept some fluctuation in the market value of your investment)

**A word about tax**

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

**How much does it cost?**

This section shows the fees and expenses you could pay to buy, own and sell ETF Series shares of the Fund. The fees and expenses, including any trailing commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other series, funds and investments that may be suitable for you at a lower cost.

**1. Brokerage commissions**

You may have to pay a commission every time you buy and sell ETF Series shares of the Fund. Commissions may vary by brokerage firm. Some brokerage firms may offer commission-free funds or require a minimum purchase amount.

**2. Fund expenses**

You don't pay these expenses directly. They affect you because they reduce the Fund's returns. As of September 30, 2020, the Fund's expenses were 1.58% of its value. This equals \$15.80 for every \$1,000 invested.

	<b>Annual Rate (as a % of the Fund's value)</b>
<b>Management Expense Ratio (MER)</b> This is the total of the Fund's management fee and operating expenses as of September 30, 2020 annualized for the fiscal period.	1.43%
<b>Trading Expense Ratio (TER)</b> These are the Fund's trading costs.	0.15%
<b>Fund Expenses</b>	<b>1.58%</b>

\*NCM Asset Management Ltd. waived some of the Fund's expenses. If it had not done so, the MER would have been higher.

**Trailing commission**

The trailing commission is an ongoing commission. It is paid for as long as you own ETF Series shares of the Fund. It is for the services and advice that your representative and their firm provide to you. The ETF Series of the Fund doesn't have a trailing commission.

### What if I change my mind?

Under securities law in some provinces and territories, you have the right to cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase or, in some jurisdictions, claim damages, if the simplified prospectus, annual information form, ETF Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

### For more information

Contact the manager, NCM Asset Management Ltd., or your representative for a copy of the Fund's simplified prospectus and other disclosure documents. These documents and the ETF Facts make up the Fund's legal documents.
