INDEPENDENT AUDITORS' REPORT

To the Unitholders of NCM Growth and Income Portfolio:

Opinion

We have audited the accompanying financial statements of NCM Growth and Income Portfolio, which comprise:

- the statements of financial position as at September 30, 2020 and September 30, 2019
- the statements of comprehensive Income for the years then ended
- the statements of changes in net assets attributable to holders of redeemable units for the years then ended
- the statements of cash flows for the years then ended
- and notes to the financial statements, including a summary of significant accounting policies.

Hereinafter referred to as the “financial statements”.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of NCM Growth and Income Portfolio as at September 30, 2020 and September 30, 2019, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the “*Auditors’ Responsibilities for the Audit of the Financial Statements*” section of our auditors’ report.

We are independent of NCM Growth and Income Portfolio in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. Other information comprises the information contained in the Fund's Management Report of Fund Performance to be filed with the relevant Canadian Securities Commissions.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit and remain alert for indications that the other information appears to be materially misstated.

We obtained the Fund's Management Report of Fund Performance to be filed with the relevant Canadian Securities Commissions as at the date of this auditors' report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditors' report.

We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing NCM Growth and Income Portfolio's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate NCM Growth and Income Portfolio or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing NCM Growth and Income Portfolio's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the NCM Growth and Income Portfolio's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on NCM Growth and Income Portfolio's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause NCM Growth and Income Portfolio to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represents the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

1. Reporting Entity

NCM Growth and Income Portfolio (the “Fund”) is an open-ended mutual fund trust established under the laws of Alberta pursuant to a Declaration of Trust dated August 27, 2018. The Fund’s principal place of business is Suite 1850, 333 - 7th Avenue SW, Calgary, Alberta, T2P 2Z1.

The Fund may issue an unlimited number of units. Each unit represents an equal undivided interest in the net assets of the Fund; however, the value of a Trust Unit in one Class may differ from the value of a Trust Unit in another Class, depending on the Net Asset Value of that particular Class.

NCM Asset Management Ltd. is the investment fund manager and the portfolio manager (the “Manager”) of the Fund. Effective May 15, 2020 the Trustee changed to NCM Asset Management Ltd. CIBC Mellon Trust Company (“CIBC Mellon”) is the custodian of the Fund.

The Fund (in this context, the “Top Fund”) may invest in securities of other funds within the NCM Group of funds (in this context, each an Underlying Fund).

2. Basis of preparation

(a) Statement of compliance:

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). The Fund’s significant accounting principles under IFRS are presented in note 3. These policies have been applied consistently to all years presented.

The financial statements of the Fund were approved and were authorized for issue by the Manager’s Board of Directors on December 10, 2020.

(b) Basis of measurement:

The financial statements have been prepared on the historical cost basis, except for investments at fair value through profit or loss which are measured at fair value.

(c) Functional and presentation currency:

The financial statements are presented in Canadian dollars, which is the Fund’s functional currency, and all values are rounded to the nearest dollar except where otherwise indicated.

(d) Use of judgements and estimates:

These financial statements include estimates and assumptions made by management that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, and gains and losses during the reporting year. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively. Significant areas requiring the use of management estimates include the fair value of investments and the unrealized gains/losses from investments.

3. Significant accounting policies

The Fund has consistently applied the following accounting policies to all years presented in these financial statements.

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

3. Significant accounting policies (continued)

(a) Financial assets and financial liabilities:

(i) Recognition and initial measurement

Financial assets and financial liabilities at fair value through profit or loss are initially recognized on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognized on the date on which they are originated.

Financial assets and financial liabilities at fair value through profit or loss ("FVTPL") are initially recognized at fair value, with transaction costs recognized in profit or loss. Financial assets or financial liabilities not at FVTPL are initially recognized at fair value plus transaction costs that are directly attributable to their acquisition or issue.

(ii) Derecognition

Financial assets are derecognized only when the contractual rights to the cash flows from the asset expire, or it transfers the financial assets and substantially all the risks and rewards of ownership of the asset to another entity. The Fund derecognizes financial liabilities when, and only when, the Fund's obligations are discharged, cancelled or they expire.

(iii) Classification

The Fund follows IFRS 9 Financial Instruments. The standard requires assets to be carried at amortized cost or fair value, with changes in fair value recognized in profit and loss or fair value through other comprehensive income ("FVOCI") based on the entity's business model for managing financial assets and the contractual cash flow characteristics of the financial assets.

Assessment and decision on the business model approach used is an accounting judgement.

Under IFRS 9, derivatives are classified as FVTPL like other financial assets and liabilities, so there is no requirement to present separately the different component amounts on the Statement of Comprehensive Income as they fall within the same classification.

However, Canadian Security Administrators ("CSA") regulatory requirements under NI 81-106 prescribe the individual line items that are required to be disclosed which includes separate disclosure for derivatives.

The Fund classifies financial assets and financial liabilities into the following categories.

Financial assets at fair value through profit or loss:

- All investments, including derivatives

Financial assets at amortized cost:

- Cash and cash equivalents and receivables

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

3. Significant accounting policies (continued)

(a) Financial assets and financial liabilities (continued):

(iii) Classification (continued)

Financial liabilities at amortised cost:

- All liabilities other than redeemable units

The Fund designates all financial assets and liabilities at fair value through profit or loss on initial recognition because it manages securities on a fair value basis in accordance with its documented investment strategy. Internal reporting and performance measurement of these securities and the Fund as a whole is on a fair value basis. The Manager also receives management fees which are based on the overall fair value of the Fund.

(iv) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Fund has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Fund measures fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Fund measures instruments quoted in an active market at last traded price.

For securities where market quotes are not available, the Fund values the initial investment at the amount paid. After initial investment, the Fund uses estimation techniques to determine fair value including observable market data, discounted cash flows and internal models that compare the investments to its peer group.

Fair value of investments in restricted units is determined using an economic model taking into account various factors including risk free rate of interest, volatility, market value and length of restriction.

Fair value of investments in bonds, asset-backed securities and secured loans represents a price that may fall between the last bid and ask price provided by an independent security pricing service, depending on which service provider is used.

There is no difference between pricing Net Asset Value ("NAV") and accounting NAV.

(v) Amortized cost measurement

The amortized cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at recognition, minus principal repayments (if applicable), plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount (if applicable), minus any reduction for impairment (if applicable).

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

3. Significant accounting policies (continued)

(a) Financial assets and financial liabilities (continued):

(vi) Specific instruments

Cash and cash equivalents

Cash and cash equivalents comprise deposits with banks and highly liquid financial assets with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value and are used by the Fund in the management of short-term commitments, other than cash collateral provided in respect of derivatives and securities borrowing transactions.

Redeemable units

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments. The Fund has multiple classes of redeemable units that do not have identical features and therefore, do not qualify as equity under IAS 32, Financial Instruments: Presentation. The redeemable units, which are classified as financial liabilities and measured at redemption amount, provide investors with the right to require redemption, subject to available liquidity, for cash at a unit price based on the Fund's valuation policies at each redemption date. The units represent the residual interest in the Fund.

(b) Interest for distribution purposes:

The interest for distribution purposes shown on the statements of comprehensive income represents the coupon interest received by the Fund accounted for on an accrual basis and is recognized through profit or loss. The Fund does not amortize premiums paid or discounts received on the purchase of fixed income securities.

(c) Dividend income:

Dividend income is recognized in profit or loss on the date on which the right to receive payment is established. This is usually the ex-dividend date.

(d) Distributions to holders of redeemable units:

Any distribution made will be in proportion to the number of units held by each unitholder.

Distributions per unit are calculated as the total amount of distributions divided by the number of units on the record date.

(e) Net gain (loss) from financial instruments at fair value through profit or loss:

Net unrealized/realized gain/loss from financial instruments at fair value through profit or loss is calculated using the average cost method.

Average cost does not include amortization of premiums or discounts on fixed income securities.

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

3. Significant accounting policies (continued)

(f) Income tax:

As at September 30, 2020 the Fund was a “mutual fund trust” under the Income Tax Act (Canada) and, accordingly, is not taxed on that portion of its taxable income that is paid or allocated to unitholders. The Fund pays out sufficient net income and net realized capital gains so that it will not be subject to income taxes. Accordingly, no provision for income taxes has been made in these financial statements.

However, certain dividend and interest income received by the Fund is subject to withholding tax imposed in certain countries of origin. Income that is subject to such tax is recognized gross of the taxes and the corresponding withholding tax is recognized as a tax expense. The Fund has not been subject to withholding tax during the years ended September 30, 2020 and 2019.

(g) Increase (decrease) in net assets attributable to holders of redeemable units:

The net assets attributable to holders of redeemable units per unit is calculated by dividing the net assets attributable to holders of redeemable units of a particular series of units by the total number of units of that particular series outstanding at the end of the year.

Change in net assets attributable to holders of redeemable units per unit is calculated as increase (decrease) in net assets attributable to holders of redeemable units, divided by the weighted average units outstanding during the year.

(h) Translation of foreign currency:

Foreign currency amounts are expressed in Canadian dollars as follows:

- (i) fair value of investments and accrued receivables and payables and other assets and liabilities at the rate of exchange at the end of the year; and
- (ii) purchases and sales of investments and dividend and interest income at the rate of exchange prevailing on the respective dates of such transactions.

Foreign currency differences are recognized as a component of net gain/loss from financial instruments at fair value through profit or loss.

(i) Derivative financial instruments:

The Fund may use derivative financial instruments with the Fund’s other instrument strategies. Derivative financial instruments are recorded at mark to market with changes in fair value recorded in the statement of comprehensive income.

4. Asset Transfers

On October 31, 2018, the Fund acquired substantially all of the net assets of NCM Tactical Opportunities Class (“the terminating Fund”) of NCM Opportunities Corp. and security holders of the terminating Fund became security holders of the Fund.

As a result, 227,520 Series A units of the Fund were issued and 68,663 Series F units of the Fund were issued. The assets transferred were as follows:

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

4. Asset Transfers (continued)

	October 31, 2018
Cash and cash equivalents	7,143,728
Other assets – net of liabilities	(26,900)
Value of assets received and units issued	7,116,828

5. Fair value measurement

(a) Investments:

The fair values of financial assets and financial liabilities that are traded on active markets are based on quoted market prices. For all other financial instruments, the Fund determines fair values using other valuation techniques.

For financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

A three-tier hierarchy is used as a framework for disclosing fair value based on inputs used to value the Fund's investments. The hierarchy of inputs is summarized below:

- Inputs that are quoted prices (unadjusted) in active markets for identical instruments (Level 1);
- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable (Level 2);
- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable (Level 3).

Changes in valuation methods may result in transfers into or out of an investment's assigned level. The Fund recognizes transfers between levels of the fair value hierarchy as at the end of the reporting year during which the change occurred.

(b) Fair value hierarchy – Financial instruments measured at fair value:

The tables below analyze investments measured at fair value at the reporting dates by the level in the fair value hierarchy into which the fair value measurement is categorized. The amounts are based on the values recognized in the statement of financial position.

<i>(in Canadian dollars)</i>	Level 1	Level 2	Level 3	Total
September 30, 2020				
Public securities - Equity and Bond ETFs	15,858,741	-	-	15,858,741
Public securities - Underlying Funds	-	14,201,292	-	14,201,292
Total Investments	15,858,741	14,201,292	-	30,060,033

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

5. Fair value measurement (continued)

(b) Fair value hierarchy – Financial instruments measured at fair value (continued):

<i>(in Canadian dollars)</i>	Level 1	Level 2	Level 3	Total
September 30, 2019				
Public securities - Equity and Bond ETFs	7,361,024	-	-	7,361,024
Public securities - Underlying Funds	-	11,276,869	-	11,276,869
Total Investments	7,361,024	11,276,869	-	18,637,893

There were no transfers into or out of Level 1, Level 2 and Level 3 during the years ended September 30, 2020 and September 30, 2019.

(c) Financial instruments not measured at fair value:

The carrying values of cash and cash equivalents, dividends receivable, interest receivable, accrued expenses, and other receivables and payables approximate their fair values due to their short term nature.

6. Financial instruments and associated risks

The Fund's activities expose it to a variety of risks associated with financial instruments as follows: credit risk, liquidity risk and market risk (including currency risk, interest rate risk and price risk). The Fund's overall risk management program seeks to maximize the returns derived for the level of risk to which the fund is exposed and seeks to minimize potential adverse effects on the Fund's financial performance. Market disruptions associated with acts of terrorism, war, natural disasters and epidemics can lead to increased market volatilities and be highly disruptive to economies, individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings and investor sentiment. Such disruptions can adversely affect the financial instrument risks associated with each of the Funds and its investments. All investments result in a risk of loss of capital.

Credit risk:

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The fair value of debt securities includes consideration of the credit worthiness of the debt issuer. The carrying amount of bonds and secured loans in the Underlying Funds and exchange traded funds ("ETFs") represents the maximum credit risk exposure as at September 30, 2020 and September 30, 2019. The carrying amount of cash and cash equivalents and receivables also represents their maximum credit risk.

A portion of the Underlying Funds and ETF's may consist of instruments that have a credit quality rated below investment grade by internationally recognized credit rating organizations or may be unrated. These securities involve significant risk exposure as there is uncertainty regarding the issuer's capacity to pay interest and repay principal in accordance with the terms of the obligations. Low rated and unrated debt instruments generally offer a higher current yield than that available from higher grade issuers, but typically involve greater risk.

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

6. Financial instruments and associated risks (continued)

Credit risk (continued):

Credit risk arising on transactions for units issued and portfolio assets sold relates to transactions awaiting settlement, also known as settlement risk.

'Settlement risk' is the risk of loss due to the failure of an entity to honour its obligations to deliver cash, securities or other assets as contractually agreed. Credit risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

For the majority of the transactions, the Fund mitigates this risk by conducting settlements through a broker to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations. Also, legal entitlement will not pass until all monies have been received for the units purchased or the portfolio assets sold. If either party does not meet its obligation then the transaction will fail.

Substantially all of the assets of the Fund are held by CIBC Mellon, the Custodian. Bankruptcy or insolvency of the Custodian may cause the Fund's rights with respect to securities held by the custodian to be delayed or limited. The Fund monitors its risk by monitoring the credit quality and credit rating and financial positions of the custodian. If the credit quality or the financial position deteriorates significantly then the Portfolio Manager will move the investment or cash holdings to another financial institution.

The Portfolio Manager analyzes credit concentration based on the counterparty, industry and geographical location of the financial assets that the Fund holds.

Other than outlined above there were no significant concentrations of credit risk to counterparties at September 30, 2020 and September 30, 2019.

Liquidity risk:

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or other financial assets.

The Fund and its Underlying Funds are exposed to daily cash redemptions of redeemable units. Investments in small, mid-capitalization and micro-capitalization companies may involve greater risks than in larger, more established companies since such companies may have more limited markets and financial resources and their securities may be more sensitive to market changes. As well, the liquidity of the securities may be limited. Consequently, in order to fund redemptions, the Underlying Fund may have to liquidate shareholdings in the more liquid large and medium-sized companies. To the extent that the liquidity is limited, the Fund's ability to realize profits and/or minimize losses may be limited, which could adversely affect the net asset value of the Fund. Also, the Underlying Fund's investments may include unlisted equity and debt instruments, which are not traded on an organized public market and which may be illiquid. As a result, the Underlying Fund may not be able to quickly liquidate some of its investments in these instruments at an amount close to their fair value in order to meet their liquidity requirements. The Fund believes it maintains sufficient cash and cash equivalent positions to maintain liquidity.

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

6. Financial instruments and associated risks (continued)

Liquidity risk (continued):

The Fund's liquidity risk is managed on a daily basis by the Portfolio Manager. The Fund's redemption policy allows for redemptions at any time during any given month.

The Fund is subject to regulatory requirements whereby the Fund shall not purchase an illiquid asset if, immediately after the purchase, more than ten percent of the net assets of each Fund, taken at market value at the time of purchase, would consist of illiquid assets. Residual contractual maturities of financial liabilities are all due on demand.

Market risk:

Market risk embodies the potential for both losses and gains and includes currency risk, interest rate risk and price risk. The Fund's strategy on the management of investment risk is driven by the Fund's investment objective. The Fund is designed to provide investors with long term capital appreciation and some current income by investing, directly or indirectly through investments in Underlying Funds, in a diversified portfolio of equity securities and fixed-income securities from anywhere in the world.

It is expected that the Fund will invest primarily in Underlying Funds managed or advised by the Manager or its affiliates and ETFs.

The Fund may engage in a limited amount of short selling as well as in securities lending, repurchase and reverse repurchase transactions. The Fund may also invest in derivatives (including forward contracts, calls and puts) and in Horizon BetaPro ETFs. These transactions will be used to achieve the Fund's overall investment objectives and to enhance the Fund's returns.

No material change in the investment objectives, policies or restrictions of the Fund may be made without the approval of a majority of the votes cast at a meeting of the Fund duly called for that purpose.

The Fund's market risk is managed on a daily basis by the Portfolio Manager in accordance with the policies and procedures in place.

Details of the nature of the Fund's investment portfolio at September 30, 2020 are disclosed in the schedule of investment portfolio.

(a) Currency risk:

The Fund may invest in financial instruments and enter into transactions denominated in currencies other than the Canadian dollar. In addition, some of the Underlying Funds and ETF's hold investments in global currencies. Consequently, the Fund is exposed to risks that the exchange rate of the Canadian dollar to other foreign currencies may fluctuate.

At the reporting date the Fund had a negligible amount (September 30, 2019 – 0.1%) of its net asset value in foreign currency.

Sensitivity Analysis:

At September 30, 2020, had the Canadian dollar strengthened or weakened by 1% in relation to all currencies, with all other variables held constant, net assets attributable to the holders of redeemable units and the change in net assets attributable to holders of redeemable units would

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

6. Financial instruments and associated risks (continued)

Market risk (continued):

have increased or decreased by \$119 (September 30, 2019 - \$118). In practice, the actual trading results may differ from this sensitivity analysis and the difference could be material.

(b) Interest rate risk:

Interest rate risk arises on interest-bearing financial instruments. A change in general interest rates is a main factor affecting the price of a fund that invests in fixed-income securities. Fixed-income securities, like bonds, pay interest based on interest rates when the bond is issued. When interest rates fall, the value of bonds rise. This is because the interest on existing bonds will be higher than the rate on newer bonds. Conversely, when interest rates rise, the price of existing bonds drop because they pay less than newer bonds. Some of the Underlying Funds and ETFs have interest-bearing assets and are exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing market interest rates.

High yield corporate bond prices are impacted by the credit metrics, liquidity and business fundamentals of the corporate entity, movements in underlying interest rates and inflows and outflows in and out of high yield space.

(c) Other price risk:

Other price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment or its issuer, or factors affecting all instruments traded in the market. All securities present a risk of loss of capital.

Price risk is managed by the Fund's Portfolio Manager through construction of diversified portfolios. The price of a security is affected by individual company developments and by general economic and financial conditions in those countries where the issuer of the security is located, does business or where the security is listed for trading. In addition, certain securities are not listed on any prescribed stock exchange and thus a liquid market for resale may not exist.

The Portfolio Manager will monitor these factors daily and make decisions regarding the portfolio based on its knowledge of the market conditions and diversify the portfolio of investments accordingly. The maximum price risk resulting from financial instruments is equivalent to their fair value.

Sensitivity analysis:

Management's estimate of the impact of a 1% increase or decrease on the following underlying indices and ETFs that are contained in the portfolio at September 30, 2020 and September 30, 2019, is an increase or decrease in the net assets attributable to holders of redeemable units of approximately:

7. Net assets attributable to unitholders of redeemable units

Redeemable units

The authorized capital of the Fund consists of an unlimited number of units, issuable in series. Currently, the Fund is offered in six series of units: Series A units, Series F units, Series I units, Series M units, Series T6 units, and Series F6 units. Each series ranks equally with respect to distributions and return of capital in the event of liquidation, dissolution or winding up based on their respective series' net asset values. Each series pays its own fees and expenses. The general expenses that are not series specific are allocated in proportion to the annual weighted average units of each series. Series A and Series T6 are sold under the front end sales charge option. A commission ranging from 0% to 5% is paid by the investor to the dealer with a 2% redemption fee being charged if the units are redeemed in the first 30 days.

Series F and Series F6 are sold without commission provided the purchaser is enrolled in a fee-for-service or wrap program with the dealer. A 2% redemption fee is charged if the Series F or Series F6 is redeemed in the first 30 days.

Series M units are not available for general public purchase. Currently, there are no Series I units outstanding.

The units may be redeemed daily at the net asset value per unit of the respective series

The analysis of movements in the number of redeemable units and net assets attributable to holders of redeemable units during the years ended September 30, 2020 and 2019 was as follows:

Series A	2020	2019
Balance, opening	377,742	3,000
Issued on distributions reinvested	3,420	1,439
Issued for cash	244,047	427,842
Redeemed for cash	(101,329)	(54,539)
Balance, September 30	523,880	377,742

Series F	2020	2019
Balance, opening	261,203	3,000
Issued on distributions reinvested	3,522	684
Issued for cash	334,515	286,755
Redeemed for cash	(77,405)	(29,236)
Balance, September 30	521,835	261,203

Series T6	2020	2019
Balance, opening	1,911	-
Issued for cash	4,089	1,911
Balance, September 30	6,000	1,911

Series F6	2020	2019
Balance, opening	81,278	-
Issued for cash	3,323	139,120
Redeemed for cash	(19,163)	(57,842)
Balance, September 30	65,438	81,278

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

7. Net assets attributable to unitholders of redeemable units (continued)

Redeemable units (continued):

Series M	2020	2019
Balance, opening	38	-
Issued on distributions reinvested	112	-
Issued for cash	26,190	38
Redeemed for cash	(40)	-
Balance, September 30	26,300	38

The calculation of the increase (decrease) in net assets attributable to holders of redeemable units per unit is presented below. Due to rounding, numbers presented may not calculate precisely and not reflect the absolute figures.

September 30, 2020	Series A	Series F	Series T6	Series F6	Series M
Increase (decrease) in net assets attributable to holders of redeemable units (in 000's of \$)	265	331	5	63	12
Average units outstanding during the year (in 000's of units)	510	467	3	80	20
Increase (decrease) in net assets attributable to holders of redeemable units per unit	\$ 0.52	\$ 0.71	\$ 1.67	\$ 0.78	\$ 0.60

September 30, 2019	Series A	Series F	Series T6	Series F6	Series M
Increase (decrease) in net assets attributable to holders of redeemable units (in 000's of \$)	610	497	-	169	-
Average units outstanding during the year (in 000's of units)	257	167	2	75	-
Increase (decrease) in net assets attributable to holders of redeemable units per unit	\$ 2.38	\$ 2.98	\$ 0.24	\$ 2.25	\$ 0.15

8. Management fees, expenses and key contracts

(a) Manager and management fees:

Series A and Series T6 paid an annual management fee to the Manager of 1.85% of the net asset value of the series. Series F and F6 paid an annual management fee to the Manager of 0.85% of the net asset value of the series. The management fee is calculated and paid monthly. Series M units are not available for general public purchase. The Manager and its affiliates offer wealth management services including fee-based and managed accounts under the Cumberland Private Wealth brand, and the Series M units are intended for such accounts.

There is no management fee attached to Series M. Included in accrued expenses at September 30, 2020 is \$33,892 (September 30, 2019 - \$21,398) related to these fees.

NCM GROWTH AND INCOME PORTFOLIO

Notes to Financial Statements

For the years ended September 30, 2020 and 2019

8. Management fees, expenses and key contracts (continued)

(b) Operating expense recoveries:

The Manager has agreed to absorb certain expenses associated with some of the Funds. Such absorptions may be terminated at any time without notice. Included in Due from Manager at September 30, 2020 is \$133,178 (September 30, 2019 - \$111,552) related to these fees.

9. Involvement with unconsolidated structured entities

The Fund holds interests in structured entities that it does not consolidate. The purpose of the investment is to manage assets on behalf of third party investors and generate fees for the investment manager. These vehicles are financed through the issue of units to investors.

The table below sets out interests held by the Fund in unconsolidated structured entities. The maximum exposure to loss is the carrying amount of the financial assets held.

	Total net assets	Carrying amount included in financial assets at fair value through profit or loss
September 30, 2020
