MANAGEMENT REPORT OF FUND PERFORMANCE

NCM NORREP FUND

MANAGEMENT REPORT OF FUND PERFORMANCE NCM NORREP FUND

This annual management report of fund performance contains financial highlights but does not contain the annual financial statements of the investment fund. You can get a copy of the Fund's financial statements at your request, and at no cost, by calling toll free (877) 531-9355, by writing us at 1850, 333-7th Avenue SW Calgary, Alberta T2P 2Z1 or by visiting our website at www.ncminvestments.com or SEDAR at www.sedar.com.

Security holders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the NCM Norrep Fund (the "Fund") is to achieve long-term capital appreciation by investing in small and mid-capitalization equities of issuers in Canada and the United States.

The Fund achieves this objective by employing a value approach as the primary methods of securities selection. This means searching for companies with superior long-term earnings and/or cash flow per share growth that exhibit a strong position in the market in which they operate, quality management and balance sheet strength. This analysis is supplemented by quantitative techniques that examine movements in general market trends as well as trends in earnings and the price of securities.

The Fund may invest in a combination of securities including common and preferred shares, income trust units, rights and warrants, convertible securities and government and corporate bonds. The Fund may also invest in permitted derivatives and engage in limited short selling in order to achieve its objective.

RISK

The Fund is suitable for investors seeking long-term capital appreciation with a tolerance for medium to high risk. Investors whose primary concern is preservation of capital should not be invested in this Fund. General risks of an investment in the NCM Norrep Fund are detailed in the simplified prospectus and include among others: equity risk, small and mid-capitalization company risk, liquidity risk and regulatory risk.

The Fund's investments in commodity-related companies, such as those operating in the Energy and Materials sectors, form a portion of the portfolio. As a result, changes in commodity prices such as crude oil, natural gas and metals may have an impact on portfolio returns. Similarly, the Fund's investments in the Industrials and Consumer Discretionary sectors potentially increase the Fund's sensitivity to changes in GDP, commodity prices, foreign exchange rates, interest rates, stimulus removal, and/or credit conditions.

RESULTS OF OPERATIONS

The year ended September 30, 2020, was a volatile year for most equity markets. The S&P/TSX Composite Total Return Index increased approximately 3.2% in fourth quarter of 2019. This index also started 2020 positively, increasing about 5.5% from the start of the year until February 20, 2020 when the index reached an all-time high. However, the situation deteriorated significantly in the weeks that followed and the S&P/TSX Composite Total Return Index declined 20.9% for the first quarter of 2020 as a whole. March marked the recent low for many equity indices, and the S&P/TSX Composite Total Return Index increased by about 22.5% between March 31, 2020 and September 30, 2020.

The novel coronavirus (COVID-19) and the resulting economic impact of society's response to the pandemic were arguably the most significant macroeconomic events of the year ended September 30, 2020. Many equity markets initially reacted to news of the pandemic with a sharp sell off. However, most governments around the world responded to the pandemic with significant fiscal stimulus packages. Furthermore, most central banks around the world reduced short-term interest rates and many are using other monetary policy tools to maintain and improve liquidity in the financial system. Many equity markets began to rally as investors

RESULTS OF OPERATIONS (continued)

gained comfort with the scope of the pandemic and the response of governments and policy makers. The situation remains fluid and the outcome and timing of a return to more normal economic and societal conditions will depend on the actions of governments, corporations and individuals.

For the year ended September 30, 2020 the Fund's return was negative 0.5%, underperforming its benchmark, the BMO Small Cap Total Return Index, which was up 3.1%. As of September 30, 2020, companies in the Materials sector comprised approximately 33% of the benchmark, with the majority being companies producing or intending to produce gold. During the year ended September 30, 2020 gold prices increased over US\$400/ounce and the S&P/TSX Composite Gold Sub Industry Index returned approximately 53.9%. The Fund owned some gold producers and some companies that provide services to the industry. However, many gold companies in the benchmark had no production, owned a single asset and/or had operations in jurisdictions we consider to carry significant political risk. Consequently, these companies did not meet our investment criteria.

The continued underperformance of the small cap sector has been frustrating and it is difficult to predict a catalyst for this trend to reverse. We took advantage of the volatility and lack of liquidity in the spring by selectively deploying our cash holdings. We see opportunities to purchase shares in high quality companies at valuations we believe are attractive. As always, we continue to be bottom-up investors as we focus on superior stock selection to contribute to outperformance in both bull and bear markets. We have placed even more emphasis on companies that have strong balance sheets and on companies that benefit from recurring revenue and secular growth trends. Our focus remains on building a portfolio of high-quality cash flow generative companies with attractive long-term growth opportunities and valuations.

The net assets have decreased by 12% with net assets decreasing from \$46,284,661 to \$40,714,315, \$896,610 of this change was attributable to negative investment performance and \$4,673,736 was due to negative net contributions to the Fund.

RECENT DEVELOPMENTS

Effective May 20, 2020, investors residing in each of Northwest Territories, Nunavut and Yukon can purchase units in the Fund, in addition, the Trustee changed from TSX Trust Company of Canada to NCM Asset Management Ltd effective May 15, 2020.

On or about November 9, 2020 the Fund decreased the Series F management fee from 1.25% to 1%, and has been reopened to investors to facilitate new purchases in the Fund. In addition, the investment objective will be updated to not only achieve long-term capital appreciation but also achieve consistent income. The investment objective will broaden from investing in small to mid capitalization equities to include all market capitalization issuers.

In January 2020, the World Health Organization declared the coronavirus a global health emergency and on March 11, 2020, it was declared a global pandemic. The situation is dynamic with various cities and countries around the world responding in different ways to address the outbreak. At this time, governments and businesses around the world are introducing significant new measures to contain and control the spread of the virus.

There had been a significant drop in commodity prices and equity markets have reacted with the biggest decline experienced in more than a decade. In response, both the US Federal Reserve and the Bank of Canada quickly reduced their key interest rates.

The full impact of these circumstances on businesses will not be fully understood until time has passed. While the full impact is not yet known, we will continue to monitor the impact the coronavirus has on the Funds' investments and reflect the consequences as appropriate in our accounting and reporting.

RELATED PARTY TRANSACTIONS

Management fees of \$759,235 were paid to NCM Asset Management Ltd. ("NCM"), the Fund's Manager and Portfolio Manager. Management fees are 2% for Series A and 1.25% for Series F, of the series net asset value of the Fund and are calculated and paid monthly. Series R units are only available for investment by the NCM Funds and other funds and accounts managed or advised by the Manager and/or its affiliates and are not available for public purchase. There is

RELATED PARTY TRANSACTIONS (continued)

no management fee attached to Series R. Administration fees of \$69,919 were paid to NCM. Administration fees are charged by NCM at or below cost and relate to accounting, trading, recordkeeping, compliance and other administrative costs.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund's units and are intended to help you understand the Fund's financial performance for the fiscal years indicated. This information is derived from the Fund's audited annual financial statements.

The Fund's Net Asset Value (NAV) per unit⁽¹⁾

Series A	2020	2019	2018	2017	2016
Net Asset Value, beginning of year	32.93	36.89	38.28	35.56	34.00
Increase (decrease) from operations:					
Total revenue	0.52	0.73	0.74	0.44	0.76

Net Asset Value, end of year ⁽³⁾	34.92	34.62

(1) This information is provided as at September 30, 2020, 2019 and 2018 and October 31 for the balance preceding years presented. The information is in accordance with International Financial Reporting Standards.

(2) Distributions, if any, are reinvested in additional units or paid in cash when requested.

(3) Net asset value and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial year. Due to the different methods of calculating individual components of the table, the sum of the individual components will not necessarily equal the ending net asset value.

(4) NCM Norrep Fund Series R commenced operations October 1, 2018.

Net asset value per unit	34.92	34.62

(1) This information is provided as at September 30, 2020, 2019 and 2018 and October 31 for the balance preceding years presented. The information is in accordance with International Financial Reporting Standards.

(2) Management expense ratio (MER) is based on total expenses for the stated year and is expressed as an annualized percentage of daily average net asset value of the year.

(3) The Fund's portfolio turnover rate indicates how actively the Fund's Portfolio Manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of a year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and performance of the Fund.

(4) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year.

(5) NCM Norrep Fund Series R commenced operations October 1, 2018.

MANAGEMENT FEES

The Fund pays an annual management fee of 2% for Series A, and 1.25% for Series F, multiplied by the net asset value of the Fund, to NCM, the Fund's Manager and Portfolio Manager. The management fee is calculated and paid monthly. There is no management fee attached to Series R. For the year ended September 30, 2020 management fees amounted to \$759,235. NCM paid servicing commissions of \$234,607 (i.e. 30.90%) from these management fees to investment dealers. NCM also received fees for portfolio management and administrative services with respect to this Fund as well as all the other funds in the NCM group.

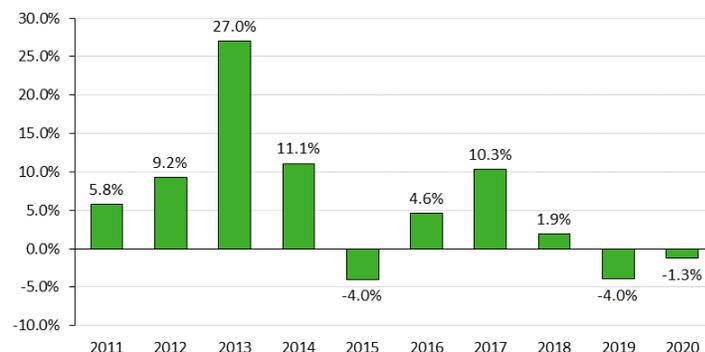

PAST PERFORMANCE

The charts below illustrate the performance of the Fund for its last 10 fiscal years as a public mutual fund. These charts reflect the performance you would have received if you invested in the Fund on the first day of the year through the last day of the year.

They assume that all distributions made by the Fund in the years shown are reinvested in additional securities of the Fund. They do not take into account sales, redemption, distribution or other optional charges which would have reduced returns or performance. Each year the Fund's performance has changed and past performance does not guarantee future performance.

YEAR BY YEAR RETURNS

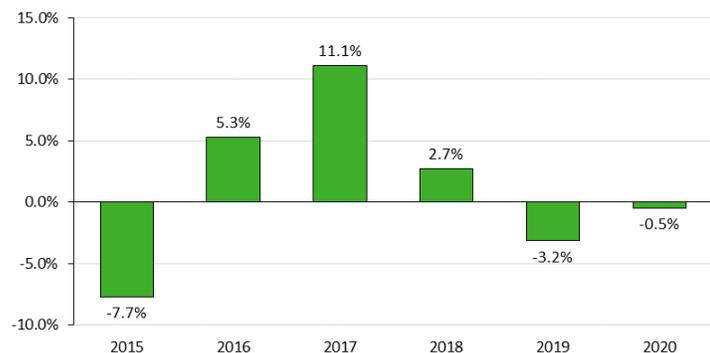

Series A

From November 1 to October 31 until 2018 which is from November 1, 2017 to September 30, 2018 then October 1 to September 30 thereafter.

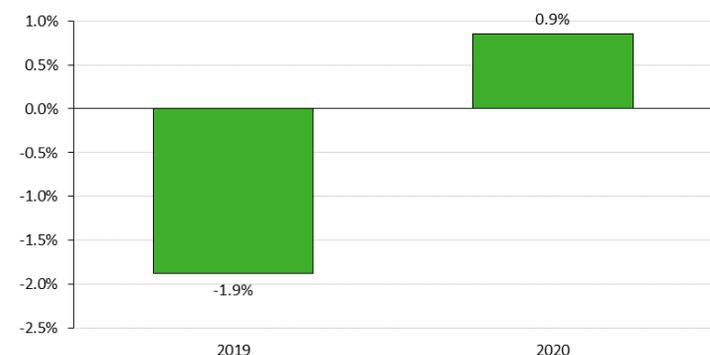

YEAR BY YEAR RETURNS (continued)

Series F

From July 6, 2015 to October 31, 2015 then November 1 to October 31 until 2018 which is from November 1, 2017 to September 30, 2018 then October 1 to September 30 thereafter.

Series R

From October 1, 2018 to September 30, 2019 then October 1 to September 30 thereafter.

ANNUAL COMPOUND RETURNS

The following table shows the percent compounded returns to September 30, 2020 of the Fund for the years indicated. It also presents the returns for the BMO Small Capitalization Equity Only Weighted Total Return Index which is the Fund's benchmark index.

	Series A	Series F	Series R	Index
One year	-1.3%	-0.5%	0.9%	3.1%
Three Year*	-0.2%	0.6%		-1.5%
Five Year*	3.4%	4.2%		5.5%
