## NCM is made for advice

2

We've been creatively solving the issues facing financial advisors and their clients for a long time. Our perspectives on topics like performance, fees and risk might surprise you.

NCM income solutions are designed to generate monthly income while preserving your original capital. You can use the income to cover retirement expenses, mortgage payments, or other needs, or you can reinvest the income for automatic dollar cost averaging.

Whichever approach you choose, you can depend on our long track record of generous, consistent, tax-smart income.

# Choose a fixed or variable distribution

You can choose to reinvest your monthly distributions or to receive them in cash. You can also choose between a fixed dollar amount of income per month or to let it fluctuate with the market.

#### **Fixed Distribution**

#### Receive the same dollar amount every month

- Receive a fixed dollar amount per unit each month
- Ideal for investors who need an exact amount of monthly income
- Good choice to supplement the CPP or a private pension plan
- NCM has a long track record of delivering a fixed distribution without depleting the original capital

#### **T6** Distribution

#### Receive a higher monthly amount that can fluctuate

- Receive income equal to 6% of the account value annually, paid monthly
- Ideal for investors who want higher income and don't mind if the exact amount fluctuates from month to month based on market conditions
- NCM has a long track record of delivering a T6 distribution while returning only a minimum of the original capital back to the investor
