INDEPENDENT AUDITOR'S REPORT

To the Shareholders of NCM Opportunities Corp. (the "Funds") being:

NCM Small Companies Class

NCM Income Growth Class

NCM Core International

NCM Global Income Growth Class

Opinion

We have audited the financial statements of the Funds, which comprise:

- the statements of financial position as at September 30, 2023 and September 30, 2022
- the statements of comprehensive income (loss) for the years then ended
- the statements of changes in net assets attributable to holders of redeemable shares for the years then ended
- the statements of cash flows for the years then ended
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Funds as at September 30, 2023 and September 30, 2022, and their financial performance and their cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "***Auditor's Responsibilities for the Audit of the Financial Statements***" section of our auditor's report.

We are independent of the Funds in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. Other information comprises:

- the information included in the Funds' Management Reports of Fund Performance filed with the relevant Canadian Securities Commissions.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit and remain alert for indications that the other information appears to be materially misstated.

We obtained the information included in the Funds' Management Reports of Fund Performance filed with the relevant Canadian Securities Commissions as at the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditor's report.

We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Funds' ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Funds or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Funds' financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

- Provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

1. Reporting entity:

On August 27, 2018, Norrep Opportunities Corp. changed its name to NCM Opportunities Corp. NCM Opportunities Corp. (the "Corporation") is incorporated under the laws of the Province of Alberta and consists of NCM Small Companies Class, NCM Income Growth Class, NCM Core International and NCM Global Income Growth Class (the "Funds" and each, a "Fund"). The Fund's principal place of business is Dome Tower, Suite 1850, 333-7th Avenue S.W. Calgary, Alberta, T2P 2Z1.

The Corporation may issue an unlimited number of common shares and special shares in multiple series. Each special share represents an equal undivided interest in the net assets of its Fund. CIBC Mellon Trust Company is custodian of each Fund and NCM Asset Management Ltd. is the Promoter of each Fund.

NCM Asset Management Ltd. ("NCM") is the Manager and Portfolio Manager for each of the Funds in the Corporation. As Manager, it provides overall management and direction for the Funds as well as manages the day-to-day operation of the Funds. As Portfolio Manager, it provides investment management services to the Funds (see note 7).

2. Basis of preparation:

(a) Statement of compliance:

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The Funds' significant accounting policies under IFRS are presented in note 3. These policies have been applied consistently to all years presented.

The financial statements of the Funds were approved and were authorized for issue by the Manager's Board of Directors on December 7, 2023.

(b) Basis of measurement:

The financial statements have been prepared on the historical cost basis, except for investments and derivatives at fair value through profit or loss which are measured at fair value.

(c) Functional and presentation currency:

The financial statements are presented in Canadian dollars, which is the Funds' functional currency, and all values are rounded to the nearest dollar except where otherwise indicated.

(d) Use of judgements and estimates:

These financial statements include estimates and assumptions made by management that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, and gains and losses during the reporting period. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively. Significant estimates include the fair value of investments.

3. Significant accounting policies:

The Funds have consistently applied the following accounting policies to all years presented in these financial statements.

(a) Financial assets and financial liabilities:

(i) Classification

The Funds follow IFRS 9 Financial Instruments. The standard requires assets to be initially recognized at fair value and subsequently measured at amortized cost, with changes in fair value recognized in profit and loss or fair value through other comprehensive income ("FVOCI") based on the entity's business model for managing financial assets or the contractual cash flow characteristics of the financial assets.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

3. Significant accounting policies (continued):

(a) Financial assets and financial liabilities (continued):

(i) Classification (continued)

Assessment and decision on the business model approach used is an accounting judgement.

Under IFRS 9, derivatives are classified as FVTPL.

The Funds classify financial assets and financial liabilities into the following categories.

Financial assets at fair value through profit or loss:

- All investments, including derivatives

Financial assets at amortized cost:

- Cash and cash equivalents and receivables

Financial liabilities at amortised cost:

- All liabilities other than redeemable shares

The Funds designate all financial assets and liabilities at fair value through profit or loss on initial recognition because it manages securities on a fair value basis in accordance with its documented investment strategy. Internal reporting and performance measurement of these securities and the Fund as a whole is on a fair value basis. The Manager also receives management fees which are based on the overall fair value of the Fund.

(ii) Recognition and initial measurement

Financial assets and financial liabilities at fair value through profit or loss ("FVPTL") are initially recognized on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities at fair value through profit or loss are initially recognized at fair value, with transaction costs recognized in profit or loss. Financial assets or financial liabilities not at FVTPL are initially recognized at fair value plus

transaction costs that are directly attributable to their acquisition or issue.

(iii) Derecognition

Financial assets are derecognized only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Funds derecognize financial liabilities when, and only when their obligations are discharged, cancelled or they expire.

(iv) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Fund has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Funds measure fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The Funds measure instruments quoted in an active market at last traded price.

For securities where market quotes are not available, the Corporation values the initial investment at the amount paid. After initial investment, the Corporation uses estimation techniques to determine fair value including observable market data, discounted cash flows and internal models that compare the investments to its peer group.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

3. Significant accounting policies (continued):

(a) Financial assets and financial liabilities (continued):

(iv) Fair value measurement (continued)

Fair value of investments in restricted shares is determined using an economic model taking into account various factors including risk free rate of interest, volatility, market value and length of the restriction.

Fair value of investments in share purchase warrants is determined using a recognized economic model taking into account various factors including risk free rate of interest, dividend rates, volatility, market value and trading volume of the underlying stock.

Fair value of subscription receipts is determined using a recognized economic model taking into account various factors including risk free interest rate, volatility, price of underlying security, expiry date and purchase price.

Fair value of investments in bonds, asset-backed securities and secured loans represents a price that may fall between the last bid and ask price provided by an independent security pricing service, depending on which service provider is used.

There is no difference between pricing fair value and accounting fair value.

(v) Amortized cost measurement

The amortized cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at recognition, minus principal repayments (if applicable), plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount (if applicable), minus any reduction for impairment (if applicable).

(vi) Specific instruments

Cash and cash equivalents

Cash and cash equivalents comprise deposits with banks and highly liquid financial assets with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value and are used by the Funds in the management of short-term commitments, other than cash collateral provided in respect of derivatives and securities borrowing transactions.

Redeemable shares

The Funds classify financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments. The Funds have multiple series of redeemable shares that do not have identical features and therefore, do not qualify as equity under IAS 32, Financial Instruments. The redeemable shares, which are classified as financial liabilities and measured at redemption amount, provide investors with the right to require redemption, subject to available liquidity, for cash at a share price based on the Funds' valuation policies at each redemption date. The shares represent the residual interest in the Funds.

The value at which mutual fund shares are issued or redeemed is determined by dividing the net assets at fair value based on last traded price of each class by the total number of shares outstanding by the class on the valuation date.

(b) Interest for distribution purposes:

The interest for distribution purposes shown on the statements of comprehensive income represents the coupon interest received by the Funds accounted for on an accrual basis and is recognized through profit or loss. The Funds do not amortize premiums paid or discounts received on the purchase of fixed income securities.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

3. Significant accounting policies (continued):

(c) Dividend income and dividend expense:

Dividend income and dividend expenses are recognized in profit or loss on the date on which the right to receive or make payment is established. This is usually the ex-dividend date.

(d) Dividends to holders of redeemable shares:

Dividends per share is calculated as the total amount of dividends attributable to a series divided by the number of shares at the date of dividend.

(e) Net gain (loss) from financial instruments at fair value through profit or loss:

Net unrealized/realized gain/loss from financial instruments at fair value through profit or loss is calculated using the average cost method.

Average cost does not include amortization of premiums or discounts on fixed income securities.

(f) Income tax:

The Corporation qualifies as a "mutual fund corporation" under the Income Tax Act (Canada) and the Alberta Corporate Tax Act.

Interest and foreign dividends received, less applicable expenses, are taxed at Federal and Provincial corporate rates less applicable credits for any foreign taxes paid. Taxable dividends received from taxable Canadian corporations are subject to taxes that are fully refundable upon payment of sufficient taxable dividends to shareholders.

The Corporation is also subject to tax at full corporate rates on 50% of capital gains realized, less allowable capital losses claimed. This tax is generally refundable to the extent that the Corporation distributes its capital gains to shareholders by way of a capital gains dividend, or through the redemption of its shares.

Temporary differences between the tax basis of assets and liabilities and their carrying amounts may be either taxable or deductible. Taxable temporary differences

give rise to deferred income tax liabilities and deductible temporary differences give rise to deferred income tax assets. When the fair value of investments is greater than the related tax basis, a deferred income tax liability arises and the deferred tax liability is offset by refundable taxes generated by future payments of capital gains dividends. When the fair value of investments is less than the related tax basis, a deferred income tax asset arises and due to the uncertainty of such deferred income tax assets ultimately being realized, the temporary differences are not recognized. Any unused capital and non-capital losses represent deferred tax assets to the Corporation for which the temporary differences are not recognized as it is uncertain if they will be realized in the future.

Income that would give rise to current income tax liabilities are distributed out to shareholders.

Certain dividend and interest income received by the Fund is subject to withholding tax imposed in certain countries of origin. Income that is subject to such tax is recognized gross of the taxes and the corresponding withholding tax is recognized as a tax expense. The Funds incurred withholding tax expense accordingly.

	September 30, 2023	September 30, 2022
<i>(in Canadian dollars)</i>		
NCM Income Growth Class	2,531	1,568
NCM Core International	13,952	14,883
NCM Global Income Growth Class	156,949	186,047

(g) Increase (decrease) in net assets attributable to holders of redeemable shares:

The net assets attributable to holders of redeemable shares per share is calculated by dividing the net assets attributable to holders of redeemable shares of a particular series of shares by the total number of shares of that particular series outstanding at the end of the year.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

3. Significant accounting policies (continued):

- (g) Increase (decrease) in net assets attributable to holders of redeemable shares (continue):

Change in net assets attributable to holders of redeemable shares per share is calculated as increase (decrease) in net assets attributable to holders of redeemable shares, divided by the weighted average shares outstanding during the year.

- (h) Translation of foreign currency:

Foreign currency amounts are expressed in Canadian dollars as follows:

- (i) fair value of investments and accrued receivables and payables and other assets and liabilities at the rate of exchange at the end of the year; and
- (ii) purchases and sales of investments and dividend and interest income at the rate of exchange prevailing on the respective dates of such transactions.

Foreign currency differences are recognized as a component of net gain/loss from financial instruments at fair value through profit or loss.

- (i) Derivative financial instruments:

The Funds may use derivative financial instruments to reduce their exposure to fluctuations in foreign currency exchange rates. Derivative financial instruments are recorded at fair value with changes in fair value recorded in the statement of comprehensive income.

Options are contracts entitling the holder to purchase or sell a specified item at a specified price, during a specified period or on a specified date. Options purchased are recorded as investments; options written (sold) are recorded as liabilities. Any gain or loss resulting from revaluation is included in change in unrealized gain (loss) on derivative instruments on the statements of comprehensive income.

The risks include the possibility there may be an illiquid options market or the inability of the counterparties to fulfill their obligations under the contract. Writing options involves, to varying degrees, elements of market risk in excess of the amount recognized in the statement of financial position.

- (j) Short selling:

A Fund may make short sales whereby a security that it does not own is sold in anticipation of a decline in the fair value of the security. Securities that are sold short are valued at the last close price reported by the principal securities exchange on which the security is traded on the financial statement date. To enter into a short sale, the Fund must borrow the security for delivery to the buyer. Also, while the transaction is open, the Fund will incur a liability for any paid dividends or interest that is due to the lender of the security.

Selling securities short may present elements of market risk in excess of the amount recognized in the statement of financial position.

- (k) Securities lending transactions:

The Funds are permitted to enter into securities lending transactions as set out in the Funds' Simplified Prospectus. These transactions involve the temporary exchange of securities for collateral with a commitment to redeliver the same securities on a future date. Securities lending transactions are administered by The Bank of New York Mellon (collectively the "Securities Lending Agent"). The value of cash or securities held as collateral must be at least 102% of the fair value of the securities loaned, sold or purchased. Income is earned from these transactions in the form of fees paid by the counterparty and, in certain circumstances, interest paid on cash or securities held as collateral. Income earned from these transactions is included in the Statements of Comprehensive Income as Securities lending income and recognized when earned.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

4. Fair value measurement:

(a) Investments:

The fair values of financial assets and financial liabilities that are traded on active markets are based on quoted market prices. For all other financial instruments, the Corporation determines fair values using other valuation techniques.

For financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

A three-tier hierarchy is used as a framework for disclosing fair value based on inputs used to value the Fund's investments. The hierarchy of inputs is summarized below:

- Inputs that are quoted prices (unadjusted) in active markets for identical instruments (Level 1);
- Valuation techniques for which the lowest level input that is significant to fair value measurement is directly or indirectly observable (Level 2);
- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable (Level 3);

Changes in valuation methods may result in transfers into or out of an investment's assigned level. The Funds recognize transfers between levels of the fair value hierarchy as at the end of the reporting year during which the change occurred.

(b) Fair value hierarchy – Financial instruments measured at fair value:

The tables below analyze investments measured at fair value at September 30, 2023 and September 30, 2022 by the level in the fair value hierarchy into which the fair value measurement is categorized. The amounts are based on the values recognized in the statement of financial position.

There was a transfer out of Level 2 to Level 1 for Firan Technology Group Corp held by NCM Small Companies Class during the year ended September 30, 2023. This security was not traded in an active market on September 30, 2022 but was traded in an active market on September 30, 2023.

(c) Financial instruments not measured at fair value:

The carrying values of cash and cash equivalents, dividends and interest receivable, accrued expenses, and other receivables and payables approximate their fair values due to their short term nature.

5. Financial instruments and associated risks:

Each Fund's activities expose it to a variety of risks associated with financial instruments as follows: credit risk, liquidity risk and market risk (including currency risk, interest rate risk and price risk). Each Fund's overall risk management program seeks to maximize the returns for the level of risk to which the Fund is exposed and seeks to minimize potential adverse effects on the Funds' financial performance. Market disruptions associated with acts of terrorism, war, natural disasters and epidemics can lead to increased market volatilities and be highly disruptive to economics, individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings and investor sentiment. Such disruptions can adversely affect the financial instrument risks associated with each of the Funds and its investments. All investments result in a risk of loss of capital.

Credit risk:

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Funds. The fair value of debt securities includes consideration of the credit worthiness of the debt issuer. The carrying amount of bonds and secured loans as presented on the schedules of investment portfolios represent credit risk exposure. This also applies to cash and cash equivalents and receivables as they have a short-term settlement.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

5. Financial instruments and associated risks (continued):

Credit risk (continued):

A portion of each Fund's portfolio may consist of instruments that have a credit quality rated below investment grade by internationally recognized credit rating organizations or may be unrated. These securities involve significant risk exposure as there is uncertainty regarding the issuer's capacity to pay interest and repay principal in accordance with the terms of the obligations. Low rated and unrated debt instruments generally offer a higher current yield than that available from higher grade issuers, but typically involve greater risk.

As at September 30, 2023 and September 30, 2022, the Funds were invested in debt securities with the following credit ratings:

NCM Income Growth Class

Debt Security by Credit Rating	% of Assets Under Management in each category	
	September 30, 2023	September 30, 2022
AAA	0.2%	0.3%
AA	0.6%	—
A	1.5%	0.2%
BBB	1.8%	0.7%
Below BBB	3.2%	6.8%

NCM Global Income Growth Class

Debt Security by Credit Rating	% of Assets Under Management in each category	
	September 30, 2023	September 30, 2022
AAA	1.6%	1.0%
AA	0.3%	—
A	2.4%	1.9%
BBB	2.9%	1.8%
Below BBB	3.2%	4.8%

Credit risk arising on transactions for shares purchased and portfolio assets sold relates to transactions awaiting settlement, also known as settlement risk.

'Settlement risk' is the risk of loss due to the failure of an entity to honour its obligations to deliver cash, securities or other assets as contractually agreed. Credit risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

For the majority of the transactions, the Funds mitigate this risk by conducting settlements through a broker to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations. Also, legal entitlement will not pass until all monies have been received for the portfolio assets purchased or the portfolio assets sold. If either party does not meet its obligation then the transaction will fail.

The assets of the Funds are held by CIBC Mellon, the custodian. Bankruptcy or insolvency of the custodian may cause the Funds' rights with respect to securities held by the custodian to be delayed or limited. The Funds monitor their risk by monitoring the credit quality and credit rating and financial position of the custodian the Funds use. If the credit quality or the financial position deteriorates significantly then the Portfolio Manager will move the cash holdings to another financial institution.

The Portfolio Manager analyzes credit concentration based on the counterparty, industry and geographical location of the financial assets that the Funds hold.

Other than outlined above there were no significant concentrations of credit risk to counterparties at September 30, 2023 and September 30, 2022. No individual investments exceeded ten percent of the net assets attributable to holders of redeemable shares at September 30, 2023 (September 30, 2022 – 6%) in each Fund.

Liquidity risk:

Liquidity risk is the risk that a Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or other financial assets.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

5. Financial instruments and associated risks (continued):

Liquidity risk (continued):

The Funds are exposed to daily cash redemptions of redeemable shares. Investments in small, mid–capitalization and micro–capitalization companies may involve greater risks than in larger, more established companies since such companies may have more limited markets and financial resources and their securities may be more sensitive to market changes. As well, the liquidity of the securities may be limited. Consequently, in order to fund redemptions, the Funds may have to liquidate shareholdings in the more liquid large and medium–sized companies.

To the extent that the liquidity is limited, the Funds' ability to realize profits and/or minimize losses may be limited, which could adversely affect the net asset value of the Fund. Also, the Funds' investments may include unlisted equity instruments, which are not traded on an organized public market and which may be illiquid. As a result, a Fund may not be able to quickly liquidate some of its investments in these instruments at an amount close to their fair value in order to meet its liquidity requirements. The Funds believe they maintain sufficient cash and cash equivalent positions to maintain liquidity.

The Funds' liquidity risk is managed on a daily basis by the Portfolio Manager. Minimum cash and cash equivalent balances will be required to be maintained in the Fund at the discretion of the Portfolio Manager to allow for monies to cover redemptions. The Funds' redemption policy allows for redemptions at any time during any given month.

The Funds are subject to regulatory requirements whereby the Fund shall not purchase an illiquid asset if, immediately after the purchase, more than 10 percent of the net assets of the fund, taken at market value at the time of purchase, would consist of illiquid assets. Residual contractual maturities of financial liabilities are all due on demand with the exception of the performance bonus. The performance bonus may be due anywhere from two months to an unknown date. The terms of the performance bonus are explained in note 7 (a).

Market risk:

Market risk embodies the potential for both losses and gains and includes currency risk, interest rate risk and price risk.

The Funds' strategies on the management of investment risk are driven by the Funds' investment objectives. NCM Small Companies Class is designed to achieve long–term capital appreciation by investing in small and mid–capitalization equities. NCM Income Growth Class is designed to achieve long–term capital appreciation and distributions by investing in small and mid–capitalization high yield securities. NCM Core International is designed to achieve long–term capital appreciation by investing primarily in publicly traded securities based outside of Canada and the United States. NCM Global Income Growth Class is designed to achieve long–term capital appreciation and distributions by investing in small, mid and large capitalization high yield securities.

NCM Small Companies Class and NCM Income Growth Class may consist of all types of equity and debt obligations of issuers in Canada and the United States that may or may not be listed for trading upon the facilities of stock exchanges or other organized and regulated trading facilities in Canada and the United States.

NCM Core International may consist of both public and private equity securities based outside of Canada and the United States. NCM Global Income Growth Class portfolios may consist of all types of equity and debt obligations of issuers across the globe that may or may not be listed for trading upon the facilities of stock exchanges or other organized and regulated trading facilities.

Assets of the Funds may also be invested in debt obligations or held in cash and cash equivalents to the extent that economic, market or other conditions make it appropriate.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

5. Financial instruments and associated risks (continued):

Market risk (continued):

Covered call options may be used to generate income from a security in a portfolio. The Fund benefits if the price of the security stays below the strike price plus the premium of the written call option. If the price of the security rises above the strike price plus the premium of the written call option, the strategy will have underperformed the price return of the security; however, the overall return on the position will still be positive.

Cash covered put options may be written in an attempt to purchase a security below the current market price and/or to generate income. If the price of the security falls to the strike price of the put option, the Fund may be assigned to purchase the security at the strike price. If the price of the security is below the strike price less the premium of the put option, the Fund will have a loss on the position; however, will have upside profit potential if the purchased security is held. Cash covered means that there are sufficient funds available to purchase the security at the strike price.

No material change in the investment objectives, policies or restrictions of the Funds may be made without the approval of a majority of the votes cast at a meeting of the Fund duly called for that purpose.

(a) Currency risk

The Funds' market risk is managed on a daily basis by the Portfolio Manager in accordance with the policies and procedures in place.

Details of the nature of the Fund's investment portfolio at September 30, 2023 are disclosed in the schedule of investment portfolio.

The Funds may invest in financial instruments and enter into transactions denominated in currencies other than the Canadian dollar.

Consequently, the Funds are exposed to risks that the exchange rate of the Canadian dollar to other foreign currencies may fluctuate.

The Funds may use derivatives to hedge the Funds' foreign currency exposure. Such permitted derivatives may include exchange-traded options, futures contracts and options on futures, over-the-counter options, and forward contracts.

At September 30, 2023 and September 30, 2022, the Funds had the following foreign currency exposure as a percentage of the net asset value, including the impact of outstanding derivative instruments:

NCM Income Growth Class	2023	2022
U.S. Dollar	–	(0.3)%

NCM Core International	2023	2022
Euro	32.4%	34.8%
U.S. Dollar	22.9%	18.8%

(b) Interest rate risk:

Interest rate risk arises on interest bearing financial instruments – a change in general interest rates is a main factor affecting the price of a fund that invests in fixed-income securities. Fixed-income securities, like bonds, pay interest based on interest rates when the bond is issued. The majority of the Funds' assets are non-interest-bearing, with the exception of NCM Income Growth Class and NCM Global Income Growth Class. As a result, the Funds are subject to limited exposure to interest rate risks due to fluctuations in the prevailing levels of market interest rates.

NCM Income Growth Class and NCM Global Income Growth Class own interest bearing assets in the form of bonds. Government bonds and investment grade bonds are fixed rate securities and have exposure to interest rate risk. This exposure can be estimated by the bond's duration.

High yield corporate bonds are impacted by the credit metrics, liquidity and business fundamentals of the corporate entity, movements in underlying interest rates on inflows and outflows in and out of the high yield space.

The table below summarizes the Funds' exposure to interest rate risks at September 30, 2023 and September 30, 2022. It includes the Funds' assets at fair values, categorized by the maturity dates.

(c) Other price risk:

Other price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment or its issuer, or factors affecting all instruments traded in the market.

All securities present a risk of loss of capital. However, the Funds which hold short positions are subject to certain inherent risks. The ultimate cost to the Funds to acquire these securities may exceed the liability reflected in these financial statements.

Price risk is managed by the Fund's Portfolio Manager by constructing a diverse portfolio of securities. The price of a security is affected by individual company developments and by general economic and financial conditions in those industries and countries where the issuer of the security is located, does business or where the security, if applicable, is listed for trading. Certain securities are not listed on any prescribed stock exchange and thus a liquid market for resale may not exist.

The Portfolio Manager will monitor these factors daily and make decisions regarding the portfolio based on their knowledge of the market conditions and diversify the portfolio of investments accordingly. The maximum price risk resulting from financial instruments is equivalent to their fair value.

Sensitivity analysis:

A 1% increase or decrease on the following indexes at September 30, 2023 and September 30, 2022 would have impacted the net assets attributable to holders of redeemable shares and the changes in net assets attributable to holders of the redeemable shares by:

Notes to Financial Statements

Years ended September 30, 2023 and 2022

6. Net assets attributable to holders of redeemable shares:

The authorized capital of each Fund consists of an unlimited number of special shares, each issuable in series. NCM Small Companies Class has three series outstanding, Series A, Series F and Series I. NCM Income Growth Class has six series outstanding, Series A, Series F, Series I, Series AA, Series T6 and Series F6. NCM Core International has four series outstanding, Series A, Series F, Series O and Series Z. NCM Global Income Growth has five series outstanding, Series A, Series F, Series I, Series T6, and Series F6. Each series ranks equally with respect to dividends and return of capital in the event of liquidation, dissolution or winding up based on their respective series' net asset values. Each series pays its own fees and expenses. Series A and Series AA are sold under the front end sales charge option, a commission ranging from 0% to 5% is paid by the investor to the dealer with a 2% redemption fee being charged if the shares are redeemed in the first 30 days. On May 19, 2021, the low load deferred sales charge option which was available for Series A and Series AA, was closed to new purchases. Under the low load deferred sales charge option, a 2.25% commission was paid by NCM to the dealer. Redemption fees were 3.0% in the first year, 2.5% in the second year and 2.0% in the third year; however, investors could redeem up to 10% of their shares annually without paying redemption fees. As of June 1, 2022, no deferred sales charge is payable to redeem your securities purchased under this purchase option. Series T6 is only sold through the front end sales charge option. Series F are sold to purchasers enrolled in a fee-for-service or wrap program with their dealer. Series Z and Series F6 are sold without commission provided the purchaser is enrolled in a fee-for-service or wrap program with the dealer.

Series I are sold without commission. A 2% redemption fee is charged if the Series F, Series I or Series F6 are redeemed in the first 30 days.

Series I shares are available to certain investors at the Portfolio Manager's discretion.

There are no sales charges or commissions payable in respect of purchases of Series O shares. Series O is only available for purchase by the NCM Funds and other funds and accounts managed or advised by the Manager and/or its affiliates.

In addition, the Corporation is authorized to issue an unlimited number of common shares. The Funds' special shares have priority over the common shares with respect to the payment of dividends and the distribution of assets or return of capital in the event of liquidation, dissolution or winding up of the Corporation. 20 common shares were issued on incorporation for \$20.

The special shares may be redeemed daily at the net asset value per share of the respective series.

The analysis of movements in the number of redeemable shares and net assets attributable to holders of redeemable shares during the year was as follows:

NCM Small Companies Class - Series A	2023	2022

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

6. Net assets attributable to holders of redeemable shares (continued):

NCM Global Income Growth Class - September 30, 2022	Series T6	Series F6
Increase (decrease) in net assets attributable to holders of redeemable shares (in 000's of \$)	(43)	(38)
Average shares outstanding during the year (in 000's of shares)	28	19
Increase (decrease) in net assets attributable to holders of redeemable shares per share	\$(1.54)	\$(2.06)

7. Management fees, expenses and key contracts:

(a) Manager and management fees:

Series A, Series AA and Series T6 shares paid an annual management fee to NCM of 2% of the net asset value of each series with the exception of the Series A of the NCM Income Growth Class, which paid an annual management fee to NCM of 1.65% of the net asset value of the series and Series A of NCM Core International which paid an annual management fee of 1.85% of the net asset value of the series. Series F and Series F6 paid an annual management fee to NCM of 1% of the net asset value of the series with the exception of Series F of NCM Core International which paid an annual management fee of 0.85% of the net asset value of the series. The management fee is calculated and paid monthly. No management fee is charged to the Series I shares; instead, the investors will pay a management fee directly to NCM, in an amount determined through negotiation. There are no management fees payable in respect of Series O shares. The NCM Funds and other funds and accounts managed or advised by the Manager and/or its affiliates that invest in Series O shares are charged a management fee for the provision of the services to them. There are no management fees payable in respect of Series Z shares, instead, the investors pay an annual flat management fee of \$1,000 per account, directly to the Manager.

(a) Manager and management fees (continued):

Accrued expenses include management fees payable as follows:

(in Canadian dollars)	September 30, 2023	September 30, 2022
NCM Small Companies Class	94,290	101,861
NCM Income Growth Class	72,857	69,954
NCM Core International	6,885	6,265
NCM Global Income Growth Class	154,137	164,763

The Manager is also entitled to a performance bonus in respect of NCM Small Companies Class. The performance bonus is 20% of the excess return compared to the relevant index multiplied by the weighted average net asset value for the Fund. The Fund's index is as follows:

NCM Small Companies Class	BMO Small Capitalization Only Weighted Total Return Index	Equity
---------------------------	--	--------

Quarterly calculations, positive or negative, are cumulative until paid. The performance bonus is only payable at the end of a calendar quarter if the return of the series since the last performance bonus was paid is positive and if the return of the series exceeds the total change in the index for the Fund.

(b) Expenses:

All fees and expenses applicable to the administration and operation of each series, including record keeping and communication costs, custodian fees, legal and filing fees, audit, applicable taxes and bank charges, are payable by the Funds. Brokerage costs are expensed as incurred and included in transaction costs.

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

7. Management fees, expenses and key contracts (continued):

(b) Expenses (continued):

Accrued expenses include administration services payable to NCM as follows:

<i>(in Canadian dollars)</i>	September 30, 2023	September 30, 2022
NCM Small Companies Class	9,586	10,673
NCM Income Growth Class	6,178	6,347
NCM Core International	717	835
NCM Global Income Growth Class	13,360	13,903

(c) Operating expense recoveries:

NCM has agreed to absorb certain expenses associated with some of the Funds. Such absorptions may be terminated at any time without notice.

Included in accounts receivable are the following related to these items:

	September 30, 2023	September 30, 2022
NCM Core International	22,923	16,740

8. Involvement with unconsolidated structured entities

The Fund holds interest in structured entities that it does not consolidate. The purpose of the investment in these entries is to manage assets on behalf of third party investors and generate fees for the investment manager. These vehicles are financed through the issue of units to investors.

The table below sets out interests held by the Fund in unconsolidated structured entities. The maximum exposure to loss is the carrying amount of the financial assets held.

NCM Income Growth Class	Total net assets of investee funds	Carrying amount included in investments
<i>(in Canadian dollars)</i>		
September 30, 2023		
Mutual Fund Trusts:		
Kiplings Strategic income, Series 'M'	\$ 121,815,635	\$2,026,895
Total	\$ 121,815,635	\$2,026,895

NCM Income Growth Class	Total net assets of investee funds	Carrying amount included in investments
<i>(in Canadian dollars)</i>		
September 30, 2022		
Mutual Fund Trusts:		
NCM Core Income Fund, Series 'I'	\$ 7,561,235	\$1,640,588
Total	\$7,561,235	\$1,640,588

NCM Global Income Growth Class	Total net assets of investee funds	Carrying amount included in investments
<i>(in Canadian dollars)</i>		
September 30, 2023		
Mutual Fund Trusts:		
Kiplings Strategic income, Series 'M'	\$ 121,815,635	\$2,997,921
Total	\$121,815,635	\$2,997,921

9. Brokerage commissions on securities transactions:

The Funds paid brokerage commissions in connection with portfolio transactions during the years ended September 30, 2023 and September 30, 2022 amounting to:

NCM OPPORTUNITIES CORP.

Notes to Financial Statements

Years ended September 30, 2023 and 2022

9. Brokerage commissions on securities transactions (continued):

(in Canadian dollars)	September 30, 2023	September 30, 2022
NCM Small Companies Class	75,947	72,608
NCM Income Growth Class	51,507	23,923
NCM Core International	9,848	37,594
NCM Global Income Growth Class	239,327	141,527

10. Securities lending transactions:

The Funds engage in securities lending. Collateral received on securities lending may be comprised of debt obligations of the Government of Canada and other countries, Canadian provincial or territorial governments, governments of states of the United States of America, and evidence of indebtedness of financial institutions whose short-term debt is rated A-1 or R-1 or equivalent by a recognized, widely followed North American credit rating agency, corporate debt or corporate commercial paper, convertible securities or cash that is not to be invested.

The table below shows a reconciliation of the gross amount generated from securities lending transactions to the securities lending income earned by the remaining Funds for the years ended September 30, 2023 and September 30, 2022:

NCM Small Companies Class (in Canadian dollars)	2023 Values	2023 Percentage	2022 Value	2022 Percentage
