How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a Fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

NCM Asset Management Ltd. has rated the volatility of this Fund as **low to medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's return, see the Risk section of the Fund's simplified prospectus.

No guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

A word about tax

In general, you'll have to pay income tax on any money you make on the Fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan such as a Registered Retirement Savings Plan, or a Tax-Free Savings Account.

Keep in mind that if you hold your Fund in a non-registered account, distributions that are not a return of capital are included in your taxable income, whether you get them in cash or have them reinvested.

Fund distributions that are a return of capital are not included in your taxable income, but will affect your capital gains or losses on disposition.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series T6 Units of the Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The Series T6 Units of the Fund are available with payment of an initial sales charge.

Sales charge option	What you pay		How it works
	In per cent (%)	In dollars (\$)	
Initial Sales Charge	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	<ul style="list-style-type: none"> • You and your representative decide on the rate. • The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the Fund's returns. As of September 30, 2023, the Fund's expenses were 2.50% of its value. This equals \$25.00 for every \$1,000 invested.

	Annual rate (as a % of the Fund's value)

Trading Expense Ratio (TER) These are the Fund's trading costs.	0.04%

NCM Asset Management Ltd. waived some of the Fund's expenses. If it had not done so, the MER would have been higher.

NCM Asset Management Ltd. pays the trailing commission to your representative’s firm. It is paid from the Fund’s management fee and is based on the value of your investment.
